The Legend of Yara

***“There’s a legend of a dark wind that blew one night
Across the skies of a village
Where a lovely young woman named Yara once lived a beautiful life
Barbarians raided that village;
They murdered Yara’s husband and her newborn son
Yara cried out with such pain
That her rage unleashed from within her a wild snake
Hissing and screaming, she stung the killers with poisonous hate.
Then she discovered that revenge only left her empty inside.
Desperate for desire to live,
Yara learned the secret of controlling the serpent inside her
And found that she could slither from place to place and time to time
And to this day, as the legend goes,
Yara travels across the skies on a light wind
Awakening young innocent souls to their power within
And with them,
Yara remembers the wonders and magnificence of life.”***
